

NOTES:

AGE GUIDELINES

- Are based on the students age as of 30 June 2022 (To fit in line with standard school year splits). **Our age group guide is shown on the next page.**
- Age brackets do not necessarily reflect skill level, but are designed to assist with the social/emotional readiness of students which is most important as all students should be progressing regardless of age group.
- Our online enrolment system will only permit enrolment for students within the nominated age range. Should you wish to discuss options of classes outside of standard age recommendation, please feel free to contact us direct.

ACRO CLASSES

- ACRO students should enrol in the session time based on AGE.
- Within each age group session time we will stream students into smaller working groups to suitably progress their skill sets. (Acro requires sound physical and mental development for safe progression).
- It is highly recommended that Acro students also participate in Ballet or a Stretch & Conditioning class.
- Our 'Pre EXTREME' & 'EXTREME' training groups are strictly via invitation only and students will be approached by studio management directly if assessed as demonstrating appropriate readiness for these classes.

POINTE CLASSES

- Student must be assessed for suitability by a podiatrist or by our Ballet specialist.
- Pointe students must also be enrolled in a Ballet class.

Timetables/Classes are subject to change.

Additional programs/classes may be added subject to interest/demand.

If a class is showing as 'full' we invite you to express your interest via proceeding with registration and joining the waitlist.
